Sedum moranii R.T. Clausen

Rogue River stonecrop

PLANTS symbol: SEMO5

August 2019 status Oregon:C; ORBIC: List 1

Distribution: Rogue River region, Josephine County, Oregon.

Habitat: Steep south to west facing slopes and rock outcrops.

Elevation: 100–300 m

Best survey time (in flower): Late May to early July

Associated species:

Quercus chrysolepis (Canyon live oak, Maul oak)

Quercus garryana (Oregon white oak)

Garrya fremontii (Bear brush, Fremont's silk tassel)

Pseudotsuga menziesii (Douglas fir)

Luina hypoleuca (Silverback luina, Littleleaf luina)

Selaginella wallacei (Wallace's selaginella, Wallace's spikemoss)

Achillea millefolium (Yarrow, Milfoil)

Pentagramma triangularis ssp. *triangularis* (Gold back fern)

Monardella odoratissima (Mountain monardella, Western mountain balm)
